

THE FILMCONTAINER

Cinema lovers are in for a treat, because De Filmcontainer will be present at Noorderzon! The Film Container is a collaboration between VERA Zienema, Filmvereniging Groningen and the Groninger Archieven, who convert a double container into a cozy mini cinema. Expect an atmospheric movie house full of alternative cinema, contemporary local talent and historical images of the Groningen region. In short, a cross-pollination event in which the signature of three different players in the Groningen film landscape form one whole. An original combination for an audience that likes being tickled.

VERA ZIENEMA: KINSHIP KINO

VERA Zienema is the alternative DIY cinema of VERA Groningen. The program is diverse, but all films are characterized by the Zienema factor. Whether it's a cult gem, a socio-political thriller or an art film that you will not see elsewhere.
